Concept Note

For nearly a decade now, there has been conflict between Ukraine and Russia. The last few weeks, the political situation has progressively aggravated and is extremely tense.

What impact does this have for persons with disabilities and their families in Ukraine? How can you run a support service in this context? What changes and how is support affected? What are the main challenges? What can Europe's service providers do to ensure solidarity with Ukrainian service providers? How can the EU help the continuous provision of support in the months to come?

Join us on the 28 February 2022 at 9h30 CET to learn more about how support services in Ukraine are dealing with the situation and to discuss what can be done to help support services in the months to come
