Policy Café is EASPD's way to update its members on current developments in specific EU policies and to collect their feedback. This feedback is used by the EASPD policy team when responding to EU initiatives on these policies.

In our next Policy Café we will follow up on the Child Guarantee, that after its launch in March and its adoption in June is now in the hands of Member States that are starting to work on their national action plans for reforms to be implemented by 2030.

This is thus a key moment for EASPD members for being involved in the process. To help in this, we prepare an advocacy toolkit and organised a policy café to inform about the state of play at national and EU level, discuss advocacy actions members could undertake, as well as the EASPD plans for 2022 and answer to members' questions on this.

Please note that this meeting is for EASPD members only
